

PY3604 - The Cognitive Neuroscience of Consciousness

View Online

The assigned reading for every week will be posted on Blackboard learn. This will normally comprise material from the main textbook (Blackmore's *Consciousness: An Introduction*, 2nd edition) as well as additional material (such as journal articles, or book chapters from the "Recommended" section below. Once you choose your essay topic, the additional "Extended" list will prove useful for identifying some relevant sources. I hope you enjoy the reading.
Dr Noam Sagiv

Baars, Bernard J. (1988) *A cognitive theory of consciousness*. Cambridge: Cambridge University Press.
